

	<p><b>Weigh-Tronix E1310 Programmable Weight Indicator</b></p> <p>Available in Stainless Steel NEMA 4 Panel Mount Version              Fully Programmable Weight Indicator              Legal for Trade Scale Interface to any Scale              Interfaces to Scales, Keyboards, Printers, Networks, and Scanners              Allows Operator Input for Order Number, Customer Name, Material, Etc.</p>
	<p><b>Stainless Steel Alphanumeric Key Board</b></p> <p>Vandal Resistant Design              104 Key Alpha Numeric Character Set              Standard PS2 Interface for Easy Replacement              NEMA 4 Rain Proof Enclosure</p>
	<p><b>Bar Code Swipe Scanner</b></p> <p>Authenticate Customers, Drivers, or System Administrators              Panel Mount Swipe Style Credit Card Type Reader              NEMA 4 Rain Proof Design              Red and Green Indicator Light for User Notification of "Good Read"              Barcode Cards are available in Generic or Customized Styles              Custom ID Cards can include Color Photographs and Barcode Info.</p>
	<p><b>RFID Short Range Card Reader</b></p> <p>Authenticate Customers, Drivers, or System Administrators              Non Contact RFID (Radio Frequency IDentification) Technology              Pass the RFID Card Within 18" of the Read Pad to Authenticate User              Rugged NEMA 4 Rain Proof Design              Available for Truck Cab Height Terminals for Driver ID</p>
	<p><b>RFID (Long Range) Automatic Vehicle Identification</b></p> <p>Automatic Vehicle/Driver Identification              25'-30' Sensitivity Range using Windshield Mountable Tags              Utilizes Windshield Mount or Driver Held ID Tags              Remotely Maintain User/Vehicle Database w/ Tares</p>
	<p><b>t700 Wireless "Mobile" Interface Terminal</b></p> <p>Wirelessly Communicate Load Out Orders to Loaders or Forklifts              Display Live Scale Weights and Transaction Data in Front End Loader Cab              Communicate Dispatch Orders to Trucks on the "Weigh Out" Scale              Available Barcode Scanner lets you to Log Drivers or Scan Orders/Tickets              802.11 Network allows Driver Input &amp; Order Processing from the Cab</p>

	<p><b>Wireless 802.11 Ethernet</b></p> <p>Connect ability to your Existing Wireless Network                  Totally Reliable, Totally Secure, Cisco Networking Hardware                  Coverage Area is Determined by Antenna Selection and Configuration                  Available for both Indoor and Outdoor Use</p>
	<p><b>Yagi – 802.11 (Long Range) Bridged Ethernet</b></p> <p>Allow Zone Network Coverage of Your Truck Scale Area                  Provide Zone Network Coverage of your Load Out Yard to Loaders/Lifts                  Combine Antennas/Access Points to Provided Total Area Coverage                  Totally Secure Encrypted Wireless to Connect your Local Area Networks                  Available for Both Indoor and Outdoor Use</p>
	<p><b>900 MHz (Ultra-Long Range) Bridged Ethernet</b></p> <p>Extend your Network to Communicate with a Remote Scale Location                  Totally Secure Point to Point (ONLY) Encrypted 900Mhz Operation                  Systems available w/ Line of Sight Range of 20 Miles                  Shorter Ranges are Achievable when Line of Sight is not Possible</p>
	<p><b>Fiber Optic Networking</b></p> <p>Connect to remote Network Workgroups or Locations                  Extended Range Beyond the Capability of RJ45 Copper Cabling                  Highly Reliable, High Speed Connectivity for Site Wide Networking</p>
	<p><b>Panel Mount / Desktop Ethernet Intercom</b></p> <p>Ethernet IP Based System that Communicates over your Existing Network                  NEMA 4 Panel Mount Versions Install in your Un-Attended Terminals                  There Are Wall Mount or Desktop Versions for your Scale House or Office                  Multiple Location Systems Are Available</p>
	<p><b>Handset Style Intercom</b></p> <p>Handset Style Intercoms are best for High Noise Areas.                  Direct Point to Point Systems are the Most Common                  Systems can also "Auto Dial" to an Existing Phone Extension                  Very Rugged Design                  Modular Design for Ease of Replacement</p>
	<p><b>Color Ethernet IP Camera(s)</b></p> <p>Color Video over your Ethernet Network                  Multiple Camera Views from a Single Screen                  View the Operator at an Un-Attended Terminal Location                  Position Multiple Camera(s) to View Driver/Load/Scoreboard Display                  Attach Snapshots to your Weigh Ticket Number or Invoice                  Monitor Your Truck Scale from a Remote Location</p>

	<p><b>Un-attended Thermal Ticket Kiosk Printer (1 or 2)</b></p> <ul style="list-style-type: none"> <li>Easily Replaceable 3-1/8" Paper Roll Stock</li> <li>Automatic Cutter/Presenter Module Hands Ticket to the Driver</li> <li>RS-232 Serial Interface Communication to Host</li> <li>Optional Network Interface Allows Remote Printing from PC</li> <li>Totally Reliable Star Micronics Kiosk Print Engine.</li> <li>Automatic Alert When Paper is Low/Out and Switch to Backup Printer</li> </ul>
	<p><b>Desktop Ticket Printer</b></p> <ul style="list-style-type: none"> <li>Convenient Desktop Design</li> <li>Replaceable 3-1/8" Paper Roll Stock</li> <li>RS-232 Serial Interface Communication to Host</li> <li>Star Micronics Thermal Print Engine.</li> <li>Quiet Reliable Operation</li> </ul>
	<p><b>Network Ready Laser Printer</b></p> <ul style="list-style-type: none"> <li>Network Ready Laser Printer for Office or Scale House</li> <li>IP Addressable for use by Any Authorized User on the Network</li> <li>8-1/2" x 11" Plain Paper Black &amp; White Laser Printer</li> <li>Print Tickets or Reports In the Office or Scale House</li> <li>Print Invoices or Customer Documentation</li> <li>Can be Used in a Kiosk Enclosure for Un-attended Operations</li> </ul>
	<p><b>Scale Attendant Cash Drawer</b></p> <ul style="list-style-type: none"> <li>Receive Cash Payments for Weight Transactions</li> <li>Interfaces directly to TSWA Scale Management System</li> <li>Easily Mounts to the Table Top or Under the Counter</li> <li>Keeps Cash Secure Between Transactions</li> </ul>
	<p><b>Inbound or Outbound Traffic Gate</b></p> <ul style="list-style-type: none"> <li>Stop On-Coming Traffic from Entering your Loaded Truck Scale</li> <li>Control Exiting the Scale until the Transaction is Completed</li> <li>Prevent "Drive Through" traffic at you Weigh Out Station</li> <li>Control Access to your Truck Scale</li> </ul>
	<p><b>Traffic Lights</b></p> <ul style="list-style-type: none"> <li>Control Traffic at your Truck Scale or Load Out Area</li> <li>Enable the Next Truck in line to Enter the Truck Scale</li> <li>Acknowledge a Completed Transaction and Allow a Truck to Exit</li> <li>Can Be Driven By Scale Indicator or Dedicated Controller</li> <li>Die Cast Aluminum or Fiber Glass Versions Available</li> </ul>

	<p><b>Scoreboard Styled Weight Display</b></p> <p>Available sizes from 4" to 12" Letters                  Display Live Scale Data where Drivers and Loader Operators can see it                  Easily Viewable in Direct Sunlight</p>
	<p><b>Radiation Detection</b></p> <p>Allows Landfill Sites to Automatically Monitor for Radiation Compliance                  Provided Logical I/O Input to Scale Indicator and Sets an Alarm                  Reset Procedure is Determined by Governing Authorities                  Outputs can be Used for Audible Alarms, Gates or other Devices                  Variable Set Point for Alarms and I/O Notifications</p>
	<p><b>Magnetic Loop Vehicle Detection</b></p> <p>Automatic Truck/Vehicle Detection                  Better Manage Traffic Flow On and Off of Truck Scales                  Provides "Vehicle Present" I/O Input to Scale Indicator for Traffic Control</p>
	<p><b>Handheld Bar Code Scanner</b></p> <p>Connects Directly to the PC or Scale Indicator                  Allows for Fast, Accurate Data Entry of Process Information                  Absolute Accuracy and Reliability                  Easily Renewable Cord Set                  Reads All Standard Bar Code Formats</p>
	<p><b>Bar Code Scanner Holster</b></p> <p>Fast Secure Retrieval of the Hand Held Scanner                  Secure Snap Down Belt Loop for Personal Use                  Can Easily Mount to Forklift Pillar for Mobile Use                  Always Have the Scanner Ready to Use</p>
	<p><b>Additional Logical I/O Expansion</b></p> <p>Up to 36 I/O Points are Available with Modular Functionality                  120 VAC or 24VDC Control Inputs or Outputs                  Fully under the control of the Scale Indicator Program                  Interface with Push Buttons, Indicator Lights, Gates Radiation Detectors, Etc.</p>
	<p><b>Wireless Remote Control I/O System</b></p> <p>Up to 8 Inputs are Possible from a Single Handheld Remote                  2, 4, 6, and 8 Point Systems are Available to be used in the Loader Cab                  Provides Remote Relay Control for 120 VAC or 24VDC Outputs                  8- Base Station Relays Operate in Momentary, Toggle , or Latching Mode                  Ranges Available from 350 Yards to ½ Mile, Fixed Systems to over 5 Miles</p>
